Living & Culture
HYUNDAI L&C

A building materials expert, Hanwha L&C, is reborn with the name "Hyundai L&C" as a new member of the Hyundai Department Store Group.

Living & Culture _ Hyundai L&C

All that is New Space and Living

BUSINESS

PARTS

Hyundai L&C is changing people's lifestyles and increasing the quality of space. And now we are helping to bring the value of interior products and construction materials around the world to a higher level.

BUILDING MATERIALS

| Interior Stones | Windows & Doors | Flooring | Wallpaper |

Setting the trend for Korean construction materials over the last half-century, Hyundai L&C continues to further its reputation as an eco-friendly construction material company that prioritizes customers' health with products of distinguished function and design, from interior stones, which is growing fast in the eco-friendly, high-end materials market to windows and doors that maximize energy efficiency and insulation.

[Aekyung Company Building]

Environmentally-friendly interior Stone_Hanstone Quartz

The engineered stone surface, made of 99% pure natural quartz, is resistant to bacteria and fungus. The product is not only certified eco-friendly in Korea, but also has successfully gone through strict certification processes in the US and Europe.

With long-lasting beauty, there's no need to worry about scratches or breakage.

- Quartz has excellent durability. It's the hardest stone after diamond.
- The surface is scratch resistant, even from knives.
- Dropped a heavy pot? No problem! Excellent durability that can withstand strong impact

Size

Product	Width	Length	Thickness
Platter	1,400mm	3,050mm	12, 20, 30mm
	1,650mm	3,300mm	(However, 15mm for transit/cert products)

※ 1,650mm x 3,300mm (made to order from factory in Canada)
※ Please consult with sales personnel or an agency before ordering.

With its non-porous quartz surface, there's no need to worry about stains.

- "Bacteria-free" Resistant to harmful bacteria and fungus, you can cook hygienically all 365 days a year.
- Engineered stone is nonporous, with "zero" water absorption."
- Easily clean the countertop with no stains from dropped food or spilled coffee

Certifications

The Hidden Treasure of Solid Surfaces – Hanex

Hanex has excellent stability and water repellent properties, which are not affected by the surrounding environment, and it maintains its original shape and beauty for a long time. It is an ideal material for counters in commercial buildings or for kitchen counters in residential buildings.

Durability

The long-lasting, non-porous acrylic material maintains its original shape and beauty for a long time

Chemical Safety

Excellent chemical resistance allows it to withstand acid, alkali, and organic solvents without any change or discoloration

Size

Product	Width	Length	Thickness
Platter	760mm	3,680mm	12 (consult for different sizes)

※ Please consult with sales personnel or an agency before ordering.

Certifications

Machinability

Processing and installation possible on request for joining, surface machining, and cutting

Easy Maintenance and Management

The excellent waterproof properties and the uniform surface and interior prevent water penetration and make it easy to clean. As the both surface and interior are non-porous, any damages or scratches can be easily cleaned and made to look just like new.

Collaboration with Premium German Window Maker _ REHAU

REHAU is one of the top three PVC window brands in Germany, first entering the market for PVC windows in 1958. Through continuous technical cooperation with this brand, Hyundai L&C is developing premium window products and upgrading residential culture in Korea. We are promoting our name as a premium brand by using REHAU products in high-end housing markets such as downtown housing reconstruction sites.

REHAU _ Balcony Window

The special ergonomic hardware allows for smooth operation, while the high-end anodizing handles add a luxurious atmosphere to the space.

REHAU _ Composite Window

The segmented window removes the need for balcony handrails and maximizes the glass area, creating the best view from the window.

REHAU_ Kitchen Window

Unlike existing sliding windows, this one opens and closes outwards while minimizing the thickness of the frame to improve the overall view of the kitchen as a piece of art.

Premium Brand with a 30-Years Tradition _ Home sash / Home Door

Home sash and Home Door are classic window and door brands that are firmly settled across the country, leading the interior market in Korea with the accumulated technologies and know-how of the last 30 years.

Home Sash _ Balcony Window

With choice of single-glazed or double-glazed, depending on the balcony extension, it has the best resistance to wind pressure, heat insulation, and soundproofing.

Home sash _ System Window

This type is for high-end housing, studio apartments, or hotels with special functions like tilt & turn or lift & sliding.

Home Door _ Door, Inner Gate

The trendy and intuitive colors, and the distinguished materials and designs, will beautifully connect each space, accentuating your interior.

Healthy and Safe Residential Space _ Residential Flooring

We have been awarded the 2016 Healthy Housing Grand Prize by the Korea National Environmental Technology Information Center for our contribution to promoting and expanding healthy housing by reducing environmentally hazardous substances in residential areas.

<p>Sorigium </p> <p>The functional flooring is excellent for absorbing daily noise and impacts.</p>  <p>Features</p> <ul style="list-style-type: none"> For customers who want a wide variety of styling options, a longer pattern adds more natural expression to the space. Loved for the Excellent Styling Potential _ Decorative Finishing Materials

Hyundai L&C's decorative finishing materials are varied in texture and color and are used in surface finishing for aesthetic and sophisticated furniture, home appliances, and exteriors.

Decorative Film for Furniture

The decorative film is used for chassis, doors, kitchen furniture, and storage furniture.

Features

- There are various patterns and designs including real wood grain, metallic, high gloss, and matte.
- This trustworthy finishing material has earned environmental and eco-friendly certifications.

Size and Packaging

- Width : 1,260 - 1,300mm
- Thickness : 0.15 - 0.45mm
- Roll length : 200 - 600m

Decorative Film for Home Appliances

The decorative film for home appliances helps express different designs and textures for refrigerators or washing machines.

Features

- There are a wide variety of options for styling, with various patterns and colors.
- Pattern and design development are customized per client.
- Floral pattern, metal hairline pattern, geometric pattern

Size and Packaging

- Width : 650 - 1,380 mm (PVC)
650 - 1,400 mm (PET)
- Thickness : 0.04 - 0.05 mm (PET) / 0.1 - 1.5mm (PVC)
- Roll length : 3,000m (PET) / 500 - 1,000m (PVC)

Exterior Decorative Film

The exterior finishing material can be used for windows and doors, panels, buildings, exterior walls, entrances, and signboards.

Features

- The high weatherproofing property helps it endure harsh outside weather conditions, including UV rays, humidity, and rain, with various designs and patterns compared to general coated products.
- It is RAL quality certified from the German Window And Door Association (GKFP), the leading organization for window and door quality standards in Europe.

Size and Packaging

- Width : 660 - 1,320mm
- Thickness : 0.18 - 0.20mm
- Roll length : 500m

Eco-Friendliness Completes a Healthy Space _ Interior Film

Hyundai L&C's Bodaq is a government eco-friendly certified interior brand that uses a minimal amount of substances which cause sick house syndrome. Its excellent, flame retardant properties and safe quality make it reliable to use in any environment. In addition, a wide variety of designs and the ease of construction make it an excellent interior finishing material for both residential and commercial use.

Interior Film

By applying a strict, eco-friendly standard from the very beginning in materials selection, we create space that is healthy for both nature and humans.

Features

- It is eco-friendly, without harmful substances such as heavy metals.
- It is safe to use in any of environment, with excellent flame-retardant properties and safety.

Size and Packaging

- Width : 1,220mm
- Thickness : 0.42mm
- Roll length : 50m/roll

DIY Adhesive Tile Sheet & Panel

Product Features

- A wide variety of patterns, luxurious colors, and 3D effects can create a unique space.
- The adhesive makes it economical and convenient to install without help.
- It can be installed on any type of material including existing tiles, glass, or marble.

Product Structure and Size

RIGID PVC & TPO

Fast-Growing Products in the Global Market _ High Functional Film & Sheet

Rigid film, thermal insulation film, and waterproof sheet, created in the essence of high technology at Hyundai L&C, are verified for their high quality in the global market.

Rigid Film [PVC]

The film is used for thermal contraction labels of different containers and pharmaceutical packaging.

Size for Shrinkable Label

- Width : 750 - 2,000mm
- Thickness : 0.09 - 0.17mm
- Roll length : 2,000 - 8,000m

Size for Pharmaceutical Packaging

	AluAlu	PTP
Thickness	Nylon (OPA) : 25 mic. Aluminum Foil : 40-50 mic. PVC Rigid Film : 60 mic.	0.25mm - 0.50mm
	Total : 0.13 mm	
Width (mm)	150 - 870	600 - 1,400
Roll Length (m)	500 - 4,000	150 - 2,000
Color	Silver	Transparent, Colored

※ Hyundai L&C only produces and supplies PVC among its AluAlu products

Window Film

Window film is a highly functional product based on Hyundai L&C's leading adhesive coating technology, with excellent performance and reliable quality. The probability of discoloration and functional deterioration are minimized by using nano-ceramic materials.

Features

- Reduces costs for cooling/heating by blocking infrared rays and radiant energy.
- Protects the skin from harmful UV rays and prevents discoloration and transformation of indoor items.
- Protects against injuries or damages from broken glass in cases of an accidents or disasters.
- Maintains the view from the window by blocking UV and infrared rays while allowing visible rays.

Structure

Proofing

Proofing is a high-quality sheet of waterproof material that has weatherproof properties of "polyolefin," the base material.

Features

- It is made of an eco-friendly material with excellent weatherproof properties.
- It can be used in harsh weather conditions with high flexibility.
- It uses fast machinery installation compared to other waterproof construction methods.

Size

- Purpose : Field Installation (PRO-Cons TPO Membrane)
- Width : 1,340mm, 1,400mm (maximum 3,000mm)
- Thickness : 1.2mm, 1.5mm

UBR Film

It is a bathroom film launched for the Japanese and Chinese UBR markets with a time and cost reduction solution.

Size

- Thickness : 0.15 ±10%
- Width : 750 - 1,300mm

HOME FURNISHING

| Kitchen Furniture | Table | Wardrobe | Cabinetry | Bed | Mattress |

Changing Residential Culture Beyond Furniture _ Hyundai L&C is creating synergy effects in the furniture sector by connecting the business to the existing contraction material business in the company. We are leading the way to a new residential culture by capturing the hearts of customers in the premium furniture market through a contract with a premium Italian brand.

Premium Italian Kitchen Furniture [Arrital Cucine]

We supply top Italian kitchen furniture for our customers with an exclusive contract with Arrital Cucine. Arrital Cucine is located in Fontanafredda, near Venice, the center of the kitchen furniture industry in Italy, and is the top Italian kitchen furniture brand with the motto of creating unique kitchen furniture.

Happy and Sophisticated Interior Furniture Made with Eco-Friendly Certified Materials [Q'cine]

The interior furniture brand, Q'cine, only uses eco-friendly certified materials, and is exerting its best efforts to contribute to the happiness of our customers by supplying better products.

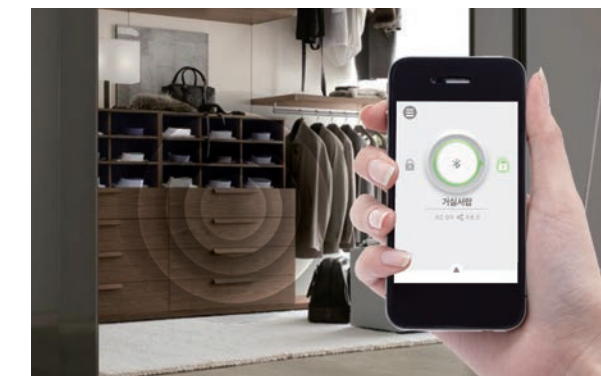

Kitchen Furniture

Hanstone Quartz surfaces create a beautiful space with their eco-friendliness, high durability, antibacterial properties, and classy design. In addition, the MDF door with PET sheet is environmentally friendly and has excellent tolerance to pollutants.

IoT Safetybox _ Home Bee

The box can be installed in furniture or drawers at the customer's convenience and is linked to smart devices for locking and controlling it at anytime, from anywhere.

Built-In Wardrobe

The built-in wardrobe can create customized space for different purposes, from organizing small items to storing bedclothes.
